Wood is a natural organic material. Thickness, colour and aspect can vary from one sheet to another.
Let the material acclimatise to the end-use conditions before using it.
Apply the masking paper on the sheet to avoid dust and fumes during CO2 laser cutting. Maintain the sheet flat on the honeycomb table using clamps.

- Safe composition, respect of both nature and people.
- From thin and flexible 0.4 mm (1/64'') to thick and rigid wood 4.5 mm (11/64'').
- 0.4 mm (1/64'') as thin as paper, for flexible applications.
- Mix with other materials like Acrylic and aluminum for modern and trendy creations!
